Should Be No Mystery About Banking Business

San Francisco, Aug. 18.—Criticism of the banker for allowing his business to remain a mystery instead of "having it recognized as an essential part of the machinery for the production and distribution of wealth," was made by James K. Lynch, vice-president of the American Bankers' association and of the First National Bank of San Francisco, here today, before the American Banking Institute.

"The charge is completely untrue," said Lynch. "If this is true it must be in that he has not made himself and his business sufficiently understood by his own customers, that he has not taken them into his confidence far enough to make clear to them why certain demands which are most proper from their point of view cannot be met. I sometimes doubt whether the banker himself fully understands what an important work the bank performs."

That Lynch, who is vice-president of the American Bankers' association, will be elected president of the organization at the annual convention to be held in Seattle next month, was predicted by George Allen, of New York, educational director of the American Institute of Banking.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
